Draw downs and pay downs are driven by portfolio investments and realisations.</p> <p>The level of the Company's borrowing may serve to magnify any gains or losses made by the Company. As at 31 March 2021, the facility was undrawn.</p>
1i	Any restrictions on the use of leverage and any collateral and asset reuse arrangements	<p>The Company is not specifically restricted in this regard, though it should be noted that this is not relevant in the context of the Company's investment portfolio and strategy.</p>
1j	The maximum level of leverage which the AIFM is entitled to employ on behalf of the AIF	<p>Where gearing is used, the Company seeks to maintain a conservative level of gearing and limits such borrowings to a maximum of 25% of the Company's Net Asset Value ("NAV") at the time of investment.</p>

2	A description of the procedures by which the AIF may change its investment strategy or investment policy, or both	Any material change to the Company's investment policy will require the approval of Shareholders by way of an ordinary resolution at a general meeting.
3	A description of the main legal implications of the contractual relationship entered into for the purpose of investment, including information on jurisdiction, the applicable law and the existence or absence of any legal instruments providing for the recognition and enforcement of judgments in the territory where the AIF is established	<p>While investors acquire an interest in the Company on subscribing for or purchasing shares, the Company is the sole legal and/or beneficial owner of its investments. Consequently, shareholders have no direct legal or beneficial interest in those investments. The liability of Shareholders for the debt and other obligations of the Company is limited to the amount unpaid, if any, on the shares held by them.</p> <p>Shareholders rights in respect of their investment in the Company are governed by the Articles and the Companies Act 2006. Under English law, the following types of claim may in certain circumstances be brought against a company by its shareholders: contractual claims under its articles of association; claims in misrepresentation in respect of statements made in any prospectus and other marketing documents, unfair prejudice claims; and derivative actions. In the event that a shareholder considers that it may have a claim against the Company in connection with such investment in the Company, such shareholder should consult its own legal advisers.</p> <p>The jurisdiction and applicable law are set out in the Part 3 (Important Information) of the Prospectus and Part 4 (Presentation of Financial and Other Information).</p> <p>Regulation (EC) 593/2008 ("Rome I") must be applied in all member states of the European Union (other than Denmark). Accordingly, where a matter comes before the courts of the relevant member state, the choice of governing law in any given agreement is subject to the provisions of Rome I. Under Rome I, the member state's court may apply any rule of that member state's own law which is mandatory irrespective of the governing law and may refuse to apply a rule of governing law if it is manifestly incompatible with the public policy of that member state. Further, where all other elements relevant to the situation at the time of the choice are located in a country other than the country whose law has been chosen, the choice of the parties shall not prejudice the application of provisions of the law of that country which cannot be derogated from by agreement. Following completion of the UK's decision to leave the European Union which completed on 31 December 2020 ("Brexit"), the rules in Rome I have been incorporated into domestic law. As a result, English choice of law clauses in contracts continue to be respected both in the UK and the EU member states</p> <p>The UK's accession to the Lugano Convention on jurisdiction and the recognition and enforcement of judgments in civil and commercial matters 2007 remains uncertain and consequently, foreign judgments obtained in EU member states relating to proceedings commenced on or after 1 January 2021 will only be enforceable under the default common law regime or (if applicable) the Hague Convention. The Hague Convention only applies to the enforcement of judgments that arise from proceedings commenced pursuant to an exclusive jurisdiction clause in favour of a contracting state in civil or commercial matters. Following Brexit, the UK government has passed domestic legislation which provides that exclusive jurisdiction clauses, which would have been caught by the Hague Convention by virtue of the UK's membership of the EU, will continue to be treated in exactly the same way as exclusive jurisdiction clauses concluded once the UK is a member of the Hague Convention in its own right .</p>

		<p>Investors should note, however, that there is no instrument in place for the recognition and enforcement of judgements between the United Kingdom and the US and accordingly, if an investor were to seek to have an order of a US court (irrespective of the state in which the order was obtained) recognised or enforced in the courts of England and Wales, the investor would need to rely on the laws of England and Wales and may therefore find it difficult in practice to enforce a judgement obtained in the US in England and Wales.</p>
<p>4</p>	<p>The identity of the AIFM, the AIF's depositary, the auditor and any other service providers and a description of their duties and the investors' rights</p>	<p><u>AIFM</u></p> <p>Esprit Capital Partners LLP whose registered office is 20 Garrick Street, London WC2E 9BT (Reg.
